

**YOUTH INTERNET GOVERNANCE FORUM
MOVEMENT**

6 June

Portugal

The Youth IGF Portugal held an open debate with young university students. The event focused on the issue of fake/counterfeit medicines and their sale, the health/social/financial issues that arise from it, and left open for debate what measures are already in place in Portugal to prevent it, and what can still be done.

7 June

Rwanda

The meeting was held at the African Leadership University, Kigali, and gathered a group of young people. There was a brief introduction of the Youth IGF, Sanofi International and the ASOP EU, and a presentation on the topic of Falsified/Counterfeit/fake medicines online. Presentations were followed by an interactive debate.

22 June

Indonesia

A seminar entitled “Fighting Fake Medicine Online” took place in Jakarta. This seminar educated an enthusiastic group of young Indonesians. As one of the countries with the highest Internet usage in the world, it is doubly important that the issue of fake medicines is raised as much as possible, especially the online environment. Sanofi Indonesia supported and spoke at the event.

27 June

United Kingdom

Students from Hyderi Girls School were engaged and brainstormed strategies to combat fake medicines using the questions raised as a steer for the discussion. Many students were personally impacted by fake medicines in their lives and were sharing stories with the rest of the group who all agreed to pledge support for the campaign.
